

```
public static void main(String[] args) {  
    // TODO Auto-generated method stub  
    for (byte b = 0; b < 128; b++) {  
        System.out.println(b);  
    }  
}
```

Handwritten notes and diagrams illustrating memory concepts:

- Start:** A diagram showing the `Start` method.
- Object:** A diagram showing an object.
- Function Demo:** A diagram showing the `Function_Demo` class and its `main` method.
- Person:** A drawing of a person, likely representing a user or a character in a program.

Handwritten notes and diagrams illustrating memory concepts:

- Function Demo2:** A diagram showing the `Function_Demo2` class and its `main` and `sum` methods.
- Stack:** A diagram showing the stack memory layout. It includes a `main` method frame and a `sum` method frame. The `sum` frame contains variables `a`, `b`, and `c`, and a return value `15`.

Handwritten notes and diagrams illustrating memory concepts:

- Function Demo2:** A diagram showing the `Function_Demo2` class and its `main` and `sum` methods.
- Stack:** A diagram showing the stack memory layout. It includes a `main` method frame and a `sum` method frame. The `sum` frame contains variables `a`, `b`, and `c`, and a return value `15`.
